ABOUT ME

Hybrid designer-developer with expertise in user-centered design and full-stack JavaScript development. Combines strategic UX thinking with technical execution using MERN stack, cloud platforms and design tools to create intuitive, scalable digital experiences. Proven ability to own projects end-to-end from user research to deployment.

EDUCATION

Open Window Institute
Bachelor of Creative Technologies degree
Expected in 2026

DHIALI DIGITAL DESIGNS

DHIALI CHETTY

UX/UI DESIGNER & INTERACTIVE DEVELOPER

- Databases: MongoDB, MySQL, PostgreSQL, Data Modeling
- Cloud & DevOps: AWS, Azure, Docker, Git/GitHub
- Tools: Visual Studio Code, Github

Methodologies & Practices

- Agile/Scrum, SDLC, Component-Based Architecture, Data Visualization

PROJECTS

Data Visualization Dashboard | FaceOff | Development | 2025

- Developed React frontend with Chart.js for interactive data visualization, implementing Node.js backend to consume multiple external APIs as real-time data processing.

Full-Stack E-Commerce Application | The Drunken Giraffe | Development | 2025

- Architected responsive React SPA with secure Node.js/Express.js backend featuring JWT authentication and MongoDB CRUD operations for complete e-commerce functionality.

Relational Database & CRUD Web App | HouseMate | Development | 2025

- Built full-stack application with React frontend and Express.js backend using PostgreSQL, implementing advanced SQL queries and cloud deployment on GCP and Azure.

EziFix: Handyman Accessibility App | UX Design | 2025

- Engineered mobile and smartwatch platform to formalize informal work, integrating health monitoring and secure payments through WCAG-compliant interface based on user research.

MediLink: Service Design App | UX Design | 2025

- Architected NFC-enabled hospital ecosystem automating check-in and navigation, translating user research into patient-centered high-fidelity prototypes and visual identity.

Shaya: E-commerce for Informal Traders | UX Design | 2025

- Spearheaded digital marketplace design for informal traders, executing complete UX process from competitor research to clickable prototype for seamless seller-buyer experience.

Complete case studies and repos available on portfolio

PROFESSIONAL EXPERIENCE

Freelance Designer & Developer | Dhiali Digital Designs | 2023-2025

- Developed custom waybill system for Outrite Africa with user role management and real-time tracking
- Created logos, brand identities and marketing materials for various clients
- Performed website editing and optimization for enhanced user engagement

Waitress | Lupa Osteria | 2024

- Developed strong communication, teamwork and multitasking skills in a fast-paced environment
